Fundamentals of Urban mobility

Assessment Brief

Course Title	Fundamentals of Urban Mobility
Course cohort/start date	September 15th, 2025
Assessment type	Final Knowledge Check Quiz
ILOs to be assessed	1. **Recognise** how different transport modes and city types influence mobility dynamics. 2. **Identify** key goals and innovative, integrated solutions that support traffic limitation and emerging mobility technologies. 3. **Outline** policy actions that support leaders in promoting sustainable modes of urban mobility, such as public transport and cycling.
Assessment pre-requisites	After completing all the online course modules, participants will be assessed on their understanding.
Assessment weighting	100%
Possible assessment outcome	Pass / Not yet passed
Guidance on completion of the assessment task	This Final Knowledge Check contains 10 multiple-choice questions designed to assess your knowledge and understanding of the Fundamentals of Urban Mobility. The questions align with the course's learning objectives: 1. Recognise how different transport modes and city types influence mobility dynamics. 2. Identify key goals and innovative, integrated solutions that support traffic limitation and emerging mobility technologies. 3. Outline policy actions that support leaders in promoting sustainable urban mobility, such as public transport and cycling. To pass the Final Knowledge Check, participants must correctly answer at least 60% of the questions. Successfully passing the Final Knowledge Check will unlock the Certificate of Completion.
Assessment support	As this is a self-paced online course, participant can take the Final Knowledge Check at their convenience after completion of all the learning modules. If participant encounter any technical issues during the Final Knowledge Check, they can consult the FAQ for guidance.
Submission deadline: time and date	There is no fixed deadline to complete the Final Knowledge Check, as this is an ongoing self-paced course. However, we recommend taking it as soon as possible after finishing the modules to ensure the content is still fresh in your mind.

How to submit	The Final Knowledge Check becomes available once participants have completed all course modules. It is accessible by clicking the "NEXT QUIZ" button after the last module, or by selecting "Final Knowledge Check" from the vertical menu on the left.
Expected feedback date	Participants results and feedback will be displayed immediately after the assessment submission (Automatic Written Feedback).
What to do in the event you cannot submit	NA
What happens if you do not achieve a pass grade?	There is no time limit and no restriction on the number of attempts. If participants don't pass on your first try, they can review the relevant course module and try again.
Use of artificial intelligence (AI) tools	NA
